Naoko Slack Primary Examiner Art Unit: 3635 Continuation of 11. does NOT place the application in condition for allowance because: Applicant's arguments are directed to a rejection that has not been presented by the Office. Specifically, applicant argues lack of motivation to combine antifungal material, fire retardant material, and foil layers with the Hutchinson reference; however, a 103 rejection combining Hutchinson with such materials has not been made in the previous Office action. Applicant's arguments regarding the lack of motivation to combine the teachings of Webb with Pobanz is not convincing, as the motivation has been clearly set forth on page 6 of the previous Office action .
